

Department of Computer Engineering

Program Educational Objectives(PEOs) (UG)

The objectives of computer engineering undergraduate program are:

- 1. To prepare students with sound knowledge in mathematical, scientific & engineering fundamentals so as to enable them to have successful career in Computer Engineering (Pre-preparation).**
- 2. To prepare students to adapt to emerging technologies in Computer Engineering (Core Competence).**
- 3. To enable students to deploy their knowledge and skills in multidisciplinary fields (Breadth).**
- 4. To inculcate professional attributes and ethics to work in team (Professionalism).**
